

PRODUCT SPECIFICATION

Diaper Changing Station, Bobrick Model B-2210

Diaper changing station shall be durable, high-impact grey polyethylene with foam core for added durability. Nonporous polyethylene shall resist odors and bacterial growth. Design of unit shall allow surface-mounting or semi-recessing of unit into 4" (102 mm) deep wall. Unit shall be equipped with an integral multi-size liner dispenser that accommodates commercially available folded liners and dental bibs, as well as C-fold or multifold paper towels measuring 6-1/2" to 10-5/8" long by 2-5/8" to 4-7/8" wide (165-270 mm x 65-125 mm). Unit shall be equipped with a pneumatic cylinder for controlled opening and closing of bed. Bed shall be secured to back plate with a concealed, full-length stainless steel hinge rod with steel bushings embedded in the plastic. No hinge structure shall be exposed on interior or exterior surfaces. Bed shall have a smooth concave changing area with a nylon safety strap, two hooks for bags and purses, and universal instruction graphics. Unit shall support loads up to 250 lb (113 kg) when properly installed. Manufacturer's service and parts manual shall be provided to the building owner/manager upon completion of project.

The logo for Bobrick, featuring the word "BOBRICK" in white, uppercase, sans-serif font centered within a blue, horizontally-oriented oval shape with a slight gradient.
